

Pet Emergency Plan & Go-Bag

Evacuation planning, supplies, and emergency pet information

CHECKLIST

Page 1 of 2

Prepare for pets and service animals before an emergency. Keep records current, identify more than one safe destination, and store a dedicated pet go-bag where you can grab it quickly.

Pet identification and care plan

Pet name / species / description	Microchip or license no.	Primary owner / phone	Backup caregiver / phone

Evacuation and destination plan

- Identify at least two pet-friendly destinations: family/friends, hotel, boarding facility, veterinarian, or other approved location.
- Arrange a buddy system: name someone who can evacuate or care for your pet if you are away or unable to return.
- Keep a current photo of you with your pet, plus identification, license, and microchip information.
- Confirm carrier/crate size, leash/harness, transportation plan, and access needs for service animals.
- Do not leave pets behind during an evacuation order unless local officials direct otherwise.

Important contacts and destinations

Veterinarian / emergency vet	Pet-friendly destination / contact	Buddy or backup caregiver	Notes / access instructions

Pet Emergency Plan & Go-Bag

Evacuation planning, supplies, and emergency pet information

Pet go-bag checklist

Pack and maintain

☐ Food and water for several days; bowls; manual can opener if needed.

☐ Medication, dosage instructions, prescription copies, and a medication schedule.

☐ Carrier/crate, leash, harness, collar, ID tags, muzzle if appropriate, and waste bags/litter.

Also pack

☐ Vaccination and medical records, adoption/license information, microchip number, and photo.

☐ Blanket, toy, treats, comfort item, cleaning supplies, and any mobility or special-care equipment.

☐ Contact list for veterinarian, emergency vet, caregiver, boarding, and pet-friendly destinations.
